Course Outline

This package includes these courses

- Web Development Summer Camp Los Angeles (18 Hours)
- App Development Online (Self-Paced, High School) (18 Hours)

Web Development Summer Camp Los Angeles

Students learn both front-end and back-end web development in this immersive summer class. Students first learn to build dynamic web pages by coding HTML, CSS, and JavaScript. Students then add back-end functionality including creating custom WordPress themes and coding PHP and MySQL. At the end of the course, Students will have created their own site!

App Development Online (Self-Paced, High School)

- Learn to build and develop apps using Swift & Xcode
- Learn programming concepts and logic to create an efficient app
- Create your own app with guidance from the instructor
